THE CAMBRIDGE MODERN HISTORY

PLANNED BY

THE LATE LORD ACTON, LL.D.

Regius Professor of Modern History

EDITED BY

A. W. WARD, Litt.D., G. W. PROTHERO, Litt.D.,
and STANLEY LEATHES, M.A.

This comprehensive history of modern times will appear in twelve royal 8vo volumes, of about 750 pp. each (bound in buckram, gilt top), and will cover the period from the close of the Middle Ages to the present day. It is hoped that the progress of the work will permit two volumes to be published in each year. The volumes will be published in two series, beginning respectively with Vol. I. (The Renaissance) and Vol. VII. (The United States). In order that each portion of the work may be the product of special research, many of the leading historical writers at home and in America, and on the Continent, have been invited to contribute.

WEBSTER'S

International Dictionary

Revised throughout, with a Supplement of

25,000 Additional Words, Phrases, and Definitions.**2348 Pages. 5000 Illustrations.***Price, bound in sheepskin, £2 net, or in cloth, 30s. net.***Some Opinions of Scholars on the New Edition**

Dr. MURRAY, *Editor of the "Oxford English Dictionary."*—"In this its latest form, and with its large Supplement and numerous appendices, it is a wonderful volume; which well maintains its ground against all rivals on its own lines. The 'definitions,' or more properly, 'explanations of meaning' in 'Webster' have always struck me as particularly terse and well put; and it is hard to see how anything better could be done within the limits."

Professor JOSEPH WRIGHT, M.A., Ph.D., D.C.L., LL.D., *Editor of the "English Dialect Dictionary."*—"The new edition of 'Webster's International Dictionary' is undoubtedly the most useful and most reliable work of its kind in any country. No one, who has not examined the work carefully, would believe that such a vast amount of lexicographical information could possibly be found within so small a compass."

Professor A. H. SAYCE, LL.D., D.D.—"It is indeed a marvellous work; it is difficult to conceive of a Dictionary more exhaustive and complete. Everything is in it—not only what we might expect to find in such a work, but also what few of us would ever have thought of looking for."

J. E. SANDYS, Litt.D., *Public Orator in the University of Cambridge, and Examiner in Greek in the University of London.*—"It is obvious that a Dictionary in a single volume, provided that it is sufficiently comprehensive, is practically more convenient than any other. Among such Dictionaries it can hardly be doubted that the English edition of 'Webster' is the best."

Sir R. C. JEBB, Litt.D., M.P., *Regius Professor of Greek in the University of Cambridge.*—"Having made some use of the new edition of 'Webster's Dictionary,' I am able to state that, in my opinion, it is a work of the very highest value in every respect." *April 24th, 1903.*

J. E. B. MAYOR, D.C.L., LL.D., *Professor of Latin in the University of Cambridge.*—"I have used for many years 'Webster's International Dictionary,' and regard it as by much the best English dictionary in one volume. Even possessors of larger works may often save time by consulting it. The new edition is a marvel of condensation."—*April 22nd, 1903.*

Very Rev. JOHN MARSHALL LANG, D.D., *Vice-Chancellor and Principal of the University of Aberdeen.*—"Webster's International Dictionary' is one of the most remarkable books of the present day, and I cannot, in adequate terms, express my admiration of the patience, the ingenuity, the complete success, with which its contents have been arranged and presented. It is a treasure-house of information."

A. W. W. DALE, M.A., *Principal of University College, Liverpool.*—"The book is a very storehouse of knowledge. Whenever I have consulted it for derivation, definition, or explanation, its accuracy and its lucidity have been all that one could wish, and the carefully chosen illustrations add in no small degree to its interest and to its helpfulness."

The Myers' Histories.

By P. V. N. MYERS, recently Professor of History and Political Economy in the University of Cincinnati.

These books have won the enthusiastic approval both of university professors and secondary teachers. Matron: Miss Beck, Hunstanton Convalescent Home, King's Lynn.

THIS Home was established in 1872, for the accommodation of persons recovering from sickness, who in the opinion of their medical advisers were likely to be benefited by a few weeks change at the Sea Side, and by Sea Bathing. Since 1872 there have been 17,450 inmates of the Home.

The number of Towns and Villages which sent Patients last year, (1903), was 250. The Home depends upon Voluntary Subscriptions, Donations, Offertories, and Collections. It is open the whole year, except during the annual cleaning in January and February.

The Building has accommodation for 100 Patients. Both Sexes are received. Under special conditions Patients may be received without nomination of Subscribers.

Subscribers of One Guinea can send a Patient for three weeks, the Patient paying in addition 5s. per week. Under the advice of the Medical Officer, a fourth week may be allowed without a fresh order.

A Donor of £21 can send one patient annually for three weeks.

A Collection from any Congregation, or otherwise, entitles to the nomination of one Patient for every two guineas forwarded.

Recommendation for Harvest Thanksgiving Offertories of One Year will be good for admission of Patients in the twelve months immediately following.

Donations and Subscriptions can be paid to the account of the Hunstanton Convalescent Home, direct to the Treasurers, F. G. F. Johnson, Esq., Eversley Lodge, Stevenage; or C. T. Robinson, Esq., King Street, King's Lynn; or to the same account at Messrs. THE CHURCH COMMITTEE FOR CHURCH DEFENCE AND CHURCH INSTRUCTION

Presidents—The ARCHBISHOPS OF CANTERBURY and YORK.

Chairman of the Executive Committee—LORD ASHCOMBE

Treasurers—Sir F. S. POWELL, Bart., M.P., and Sir C. L. RYAN, K.C.B.

Secretary—T. MARTIN TILBY, Esq.

Offices—The Church House, Dean's Yard, Westminster, S.W.

OBJECTS:—1. The necessary instruction of the people, in town and country, in all matters connected with the history of the Church, and with her spiritual interest and effectiveness.

2. To combine, as far as possible, men and women of every shade of religious and political opinion in the maintenance of the Established Church, and her rights and privileges in relation to the State.

It is sought to attain these objects by means of the organisation known as the **CHURCH COMMITTEE**. Instruction is conveyed through the Diocesan, Ruridecanal, and Parochial organisations, and each Bishop is at the head of the work in his own Diocese. The objects are carried out by means of local meetings, lectures, and the distribution of literature. The clergy of the Diocese are earnestly invited to assist in this work.

The Executive of the Church Defence and Instruction Committee **earnestly invite special contributions** for special organising efforts, and for the increased distribution of publications, in view of the probability of a General Election at no very distant date.

Offeratories, Subscriptions, and Donations, will be gratefully received by the Secretary, or by the Bankers, Messrs. HOARE, 37, Fleet Street.

East London Church Fund.

Patron:—The LORD BISHOP OF LONDON.

Presidents:—The BISHOP OF ISLINGTON and the BISHOP OF STEPNEY.

A few facts about THE EAST-END OF LONDON.

(1) It contains 9 deaneries, 200 parishes, and 1,800,000 souls.

(2) Its area covers about 70 square miles; yet its population is larger than that of the whole of Wales, which covers 7000 square miles.

(3) It is **very poor**. Nearly 800,000 people live in Stepney, Poplar, Shoreditch, Bethnal Green, and Spitalfields, and of these, **only 3 out of every 200** belong to families where "**a servant is kept**."

(4) Certain parts of it are **notoriously evil**. It is said that Shoreditch contains **more criminals** than any other district of the Metropolis. The Church's work must therefore be of a **definitely missionary character**.

(5) But there is only **1 clergyman** to every **3000 people**.

THE EAST LONDON CHURCH FUND

is the only **Diocesan** Agency which makes grants for the provision of Assistant Curates and Layworkers in North and East London.

It already helps to maintain **190 clergy and 207 lay workers**.

It will need **at least £21,000** this year.

HOW

The CLERGY can have *Collections in Church or Meetings in the Parish*. Special preachers and speakers will be provided.

TO

The LAITY can give an *annual subscription*, or donation, or ask for a collecting box which the Secretary will gladly supply.

HELP

LADIES can offer their *drawing-rooms* for meetings; or join the "*Twenty Minutes' Work Society*," particulars of which can be had of Sister Annie, 31, Harman Street, Haggerston, N.

THIS

SOME can give *personal service*. Many an Incumbent of East or North London would gladly welcome a new worker, even for one day or evening in the week.

WORK!

ALL can *pray for a blessing on the work*. The Secretary will willingly supply copies of the prayer for East London, composed by Bishop Walsham How.

Cheques and Postal Orders, crossed "Bank of England," will be gratefully acknowledged by the Rev. G. N. WALSH, Sec. E.L.C. Fund.

MUTUAL ASSURANCE WITH MODERATE PREMIUMS.

THE PREMIUMS are so moderate that, at usual ages for Assurance, £1200 or thereby may be secured from the first for the Yearly Payment which in most Offices would assure (with Profits) £1000 only—equivalent to an immediate and certain bonus of 20 per cent. The whole surplus goes to the Policy-holders on a system at once safe and equitable—no share going to those by whose death there is a loss to the Common Fund.

THE SURPLUS at the last Investigation was £1,581,000.

Over 60 per cent. of the Members who died during the last Septennium were entitled to Bonuses, which, notwithstanding that the Premiums do not as a rule exceed the non-profit rates of other Offices, were, on the average, equal to an addition of over 50 per cent. to the Original Assurances.

Accumulated Funds £13,000,000.

The Society grants assurances on the lives of those persons only who are, or have been, members of one of the Universities or of some approved Educational Institution. Experience has shown that the average duration of the lives of educated persons is longer than that of the general public, and the limitation of the Society's business has consequently resulted in the accumulation of **Strong Reserves** and the declaration of **Large Bonuses**.

Reserves.—The Valuation made as at April 30th, 1900, was based on the most stringent mortality tables now in use, with $2\frac{1}{2}$ per cent. interest. The resulting reserves amounted to £834,449, or nearly 15 years' premium income.

Bonuses.—Since the establishment of the Society the rate of Reversionary Bonus declared on ordinary Whole Life Policies has averaged £2 2s. per cent. per annum. As the result of the Valuation of April 30th, 1900, Bonuses were declared at the following rates in respect of each year's premium paid during the preceding quinquennium:

£2 10s. per cent. on Ordinary Whole-Life Assurances.

£2 per cent. on Ordinary Endowment Assurances.

Interim Bonuses of $1\frac{1}{2}$ per cent. per annum on the sum assured are paid for each year from the date of the preceding quinquennial Bonus on all Ordinary Participating Policies becoming Claims in the interval between two quinquennial Bonus declarations, provided that not less than six years' premiums have been paid.

Limited Payment Policies, carrying guaranteed surrender-values and paid-up policy options, may now be effected in the Society under a new and attractive scheme.

Before assuring elsewhere, University and Public School men should write for a copy of the Society's Prospectus to the *Actuary and Secretary*, University Life Assurance Society, 25, Pall Mall, London, S.W.

ADAMS PRIZE. 1905.

Wave motion of finite amplitude and unchanging type, in deep water.

Hitherto only one type of such motion has been discovered, that of Gerstner and Rankine, which involves vorticity; it is suggested that on examination this might be found to be a special case of a more general

\* See note on page lxii.

solution. No exact solution has hitherto been obtained in which the motion is irrotational; it is desirable that the question should be examined whether the known approximate solution is in fact an approximation to a permanent state of motion. In default of a conclusive answer to the above questions, any considerable advance in the theory of the subject, apart from an extension of the known approximations, is desirable.

Each Essay should be accompanied by a full and careful abstract, pointing out the parts which the author considers to be new, and indicating the parts which are to be regarded as of more importance than the rest.

The Essays must be sent in to the Vice-Chancellor on or before December 16, 1904, privately: each is to have some motto prefixed, and to be accompanied by a paper sealed up, with the same motto outside, which paper is to enclose another folded up having the Candidate's name and College written within.

## OBSERVATIONS.

The Divinity, Law, and Physic Schools are open during the whole of every Term, and the keeping of all Acts is entirely at the discretion of the respective Professors.

All Festivals, Saints' Days, and Sundays, are surplice-days, and the evenings preceding are surplice-evenings.

On Litany days the Doctors and Noblemen wear their robes, and the Proctors their congregation-ruffs.

The Scarlet Days are Christmas Day, Easter Day, Ascension Day, Whitsunday, Trinity Sunday, All Saints' Day, the First Sunday in November (the day for the Commemoration of Benefactors), Commencement Tuesday (the Tuesday next preceding June 24), and any other days for which the Vice-Chancellor gives notice.

# THE ELECTORAL ROLL OF THE UNIVERSITY PROMULGATED OCTOBER 22, 1903.

THE DUKE OF DEVONSHIRE, M.A., LL.D. *Trin.* Chancellor.  
LORD WALSLINGHAM, LL.D. *Trin.* High Steward.

# UNIVERSITY OF CAMBRIDGE.

HINC LUCEM ET POCULA SACRA.

---

DEUM TIMETO: REGEM HONORATO: VIRTUTEM COLITO:  
DISCIPLINIS BONIS OPERAM DATO.

*Statutes of the University.*

---

THE UNIVERSITY of CAMBRIDGE is an incorporation of students in all and every of the liberal arts and sciences, incorporated (13th Eliz. c. 29) by the name of "*The Chancellor, Masters, and Scholars of the University of Cambridge.*" In this commonwealth are seventeen Colleges, and one Public Hostel, founded for the study of learning and knowledge, and for the better service of Church and State. All these societies have been founded since the beginning of the reign of King Edward I.<sup>1</sup> and are maintained by the endowments of their several founders and benefactors. Each (the Public Hostel included) is a body corporate, bound by its own statutes; but is likewise controlled by the paramount laws of the University. A New Code of Statutes for the University was approved by Queen Victoria in Council in 1882.

The several societies in this literary republic furnish members both for the executive and for the legislative branch of its government. There are also members of the University who are not members of these societies. The legislative body of the University is called the Senate, and the place in which it assembles is called the Senate-House.

The Chancellor, Vice-Chancellor, Doctors of Divinity, Law, Medicine, Science, Letters, and Music, Bachelors of Divinity<sup>2</sup>,

<sup>1</sup> The first authentic charter is said to be dated 45 Henry III. and is to be found among the records in the Tower.

<sup>2</sup> Those Bachelors of Divinity who are Members of the Senate deduce their privilege from having previously taken the degree of Master in another faculty.

and Masters of Arts, Law, Surgery and Music, having their names upon the University Register, have votes in this assembly. Those whose names are removed from the Register lose the right of voting, but may recover it by replacing their names on the Register and paying all University dues from the time of removal of their names, 180 days being first allowed to elapse after the replacing of the names.

The Council of the Senate was established by the Act 19 and 20 Viet. cap. 88. Nothing can be offered to the Senate for confirmation without the sanction of the Council. The term Grace is used of a proposal offered to the Senate or confirmed by it.

The COUNCIL consists of the Chancellor, the Vice-Chancellor, four heads of Colleges, four Professors of the University, and eight other Members of the Senate chosen from the Electoral Roll published by the Vice-Chancellor. Two of the heads of Colleges, two of the Professors, and four other Members of the Senate are elected on the seventh of November in every other year by the Persons whose names are on the Electoral Roll, and they all hold office for four years.

The Electoral Roll is published in October each year, and is thenceforth the Electoral Roll for the year thence next ensuing. It consists of Members of the Senate who have resided within the precincts of the University for fourteen weeks at the least between the first day of the said October and the first day of the preceding October, together with all Officers of the University being Members of the Senate, the Heads of Houses, the Professors and the Public Examiners.

Before the beginning of each Term the Vice-Chancellor publishes a list of the several days of that Term on which a Congregation or assembly of the Senate will be held for transacting University business; these fixed days occur about once a fortnight; but, in case of emergency, the Vice-Chancellor summons a special Congregation. There can be no Congregation without the presence of the Chancellor or the Vice-Chancellor or his deputy, the two Proctors, and the Registrary, or their deputies. Except supplicats for degrees, no Grace can be offered to the Senate without three days' previous notice, unless at least *twenty* Members of the Senate are present. Graces remain in force till they are rescinded; but no Grace is valid which is inconsistent with the Statutes.

The executive branch of the University is committed to the following officers:—

A CHANCELLOR, who is at the head of the University to govern it according to the Statutes. He adjudicates in all causes between members of the University except in matters of mayhem and felony.

A HIGH STEWARD, who has special power to take the trial of scholars impeached of felony within the limits of the University,

and to hold and keep a leet according to the established charter and custom. He appoints a Deputy by letters patent, the appointment being subject to the approval of the Senate.

A VICE-CHANCELLOR, who in the absence of the Chancellor, or, with his consent, in his presence, or in the vacancy of the office, acts with the full powers of the Chancellor. The office is annual.

A COMMISSARY, who holds a court of record for all privileged persons, and scholars under the degree of M.A. He is appointed by the Chancellor by letters patent.

The SEX VIRI, elected by Grace of the Senate, to hold office for two years; who, with the Chancellor, constitute a Court to hear all accusations against members of the University, who are not *in statu pupillari*, for offences against the Statutes or Ordinances of the University. The Court has the power of punishing offenders by deprivation or suspension of degree, or any lighter sentence; but there is liberty of appeal to the Senate from its decision. The Court of Discipline for persons *in statu pupillari* consists of the Chancellor and six Heads of Colleges appointed by Grace.

A PUBLIC ORATOR, who is the voice of the Senate upon all public occasions. He writes letters in the name of the University, whenever the Chancellor or Council of the Senate think fit, and presents to all honorary degrees with an appropriate speech.

A LIBRARIAN, who has charge of the University Library.

A REGISTRARY, who attends all Congregations and all public proceedings of the Chancellor or of the University, records proceedings, and has charge of all writings and documents delivered to him by the Chancellor.

AN ASSISTANT REGISTRARY, who must be a member of the Senate, and who is under the general direction of the Registrary, and is appointed by him with the consent of the Vice-Chancellor.

TWO PROCTORS, who are peace-officers, elected annually. It is their duty to attend to the behaviour of all persons *in statu pupillari*, and to maintain public morals. Another part of their duty is to be present at all Congregations of the Senate, to read the Graces, to take the assent or dissent, and to pronounce the same.

TWO PRO-PROCTORS, who assist the Proctors in that part of their duty which relates to discipline and the behaviour of persons *in statu pupillari*, and the preservation of public morals; they also attend all Congregations.

TWO ADDITIONAL PRO-PROCTORS, who assist the Proctors in like manner as the other Pro-Proctors. They attend Congregations when requested by the Vice-Chancellor.

TWO ESQUIRE BEDELLS, who attend the Chancellor (or, in his absence, the Vice-Chancellor), whom they precede with their

silver maces upon all public occasions and solemnities; they receive from him the Graces at Congregations, and deliver them to the Proctors; they summon members of the Senate to the Chancellor's Court; they see to the maintenance of the University ceremonies and the forms of conducting public business.

The **UNIVERSITY MARSHAL** is appointed by the Vice-Chancellor.

The **TWO MEMBERS**, whom the University sends to the Imperial Parliament of the United Kingdom of Great Britain and Ireland, are chosen by the Members of the Senate.

The **UNIVERSITY COUNSEL** are appointed by Grace of the Senate, and are consulted upon various occasions.

The **SOLICITOR** is appointed by the Vice-Chancellor.

**SYNDICS** are the members of special committees of members of the Senate, appointed by Grace from time to time for specific duties.

There are **SPECIAL BOARDS OF STUDIES** for departments of study, consisting of Professors, and of persons appointed from time to time by Grace: and there is a **GENERAL BOARD OF STUDIES**, consisting of the Vice-Chancellor, one member of each Special Board elected by that Special Board, and eight members of the Senate elected by Grace.

The **ANNUAL INCOME** of the University arises from various sources, amongst which are

The Rectory of Burwell and a farm at Barton:

The produce of fees at matriculation, at certain examinations, and for degrees, and other irregular sources of income not easily enumerated, the gross amount of which is very variable:

The trading profits of the **UNIVERSITY PRESS**:

A Tax paid quarterly by every member of the University:

Contributions from Colleges, as provided by the Statutes.

For the care and management of the property and income of the University there is a **FINANCIAL BOARD**, consisting of the Vice-Chancellor, two members of the General Board of Studies elected by that Board, four members of the Senate elected by the Colleges in common, and four members of the Senate elected by Grace on the nomination of the Council of the Senate.

The University Accounts are examined annually by Auditors appointed by the Senate, and a Summary of these Accounts is published to the University.

The officers and servants of the University are paid mostly by fixed salaries from the University Chest.

By Statute the **TERMS** of this University are three, and include 227 days at least. Michaelmas Term begins on October 1. Lent Term ends not later than the Thursday next before Easter Day. Easter Term begins not earlier than the Tuesday next after Easter Day, and ends on June 24.

By Grace of October 12, 1882, Michaelmas Term ends on December 19, and Lent Term begins on January 8; and Lent

Term ends and Easter Term begins according to the following table :

| When Easter falls on | The Lent Term shall end | The Easter Term shall begin | Making the length of |             |

## MATRICULATION.

Matriculation, or enrolment of the Students' names in the University books, takes place on the day following (or, if that day be Sunday, the day next but one following) the last day of the first quarter of each Term. Students matriculated on any other day than a day of general matriculation pay extra fees<sup>1</sup>.

No Student can count any Term before that in which he has matriculated unless he has satisfied the Council of the Senate that his matriculation has been deferred for sufficient cause.

Every Student, before he can be admitted to a degree, must have completed nine terms' residence during three-fourths of each term as a member of a College, or of a Public Hostel, or as a Non-Collegiate Student.

Residence shall be reckoned by days. No person *in statu pupillari* shall be considered to have resided during any day unless he shall have resided during some part of such day and of the following night and shall have complied with such other conditions of residence, if any, as may be required by the authorities of his College or Hostel or by the Non-Collegiate Students Board; provided that a part of the day on which such a person completes his residence for the term may be counted as a day of residence.

Provided also that the authorities of the Colleges and Hostels, and of the Non-Collegiate Students Board, shall be empowered to continue their existing practice in the case of such students as have already commenced residence and would be prejudiced by the change.

For the purpose of this regulation the day shall be held to extend from 6 A.M. to midnight.

examination a fee of £1 shall be paid for him together with the fee due for the examination.

10. The Secretary of the Board of Examinations shall send to the Registry on the first morning of each examination, or on the first afternoon if the examination begins in the afternoon, a copy of the Corrected List of candidates with such further corrections, if any, as may be necessary, certified by him to be a correct list of the candidates actually under examination: and this list shall be considered to be the Final List of candidates for such examination, and shall be preserved in the Registry.

11. In all cases where fees are due from candidates the Registry shall send to the Tutors of the several Colleges and Public Hostels the Principals of Hostels and the proper officer of the Non-Collegiate Students Board lists of their pupils who are under examination according to the Final List, distinguishing those (if any) whose names were not included in the Corrected List: and the Tutors of the several Colleges and Public Hostels the Principals of Hostels and the officer of the Non-Collegiate Students Board shall send to the Registry the fees due from their respective pupils.

12. Lists or Names shall be considered to have been sent to the Registry on a day specified, if they have been delivered at or posted to his office on that day.

If any of the days specified for issuing or sending lists fall on a Sunday the lists in question shall be issued or sent on the Saturday previous.

## NEW REGULATIONS.

(Gr. of 11 June, 1903.)

*The first Examination under these Regulations was held in the Lent Term, 1904.*

## 10 (2) Geometry.

The paper in Geometry shall contain questions on Practical and on Theoretical Geometry. Every Candidate shall be expected to answer questions in both branches of the subject.

The questions on Practical Geometry shall be set on the constructions contained in the annexed Schedule A, together with easy extensions of them. In cases where the validity of a construction is not obvious, the reasoning by which it is justified may be required. Every Candidate shall provide himself with a ruler graduated in inches and tenths of an inch, and in centimetres and millimetres, a set square, a protractor, compasses, and a hard pencil. All figures should be drawn accurately. Questions may be set in which the use of the set square or of the protractor is forbidden.

The questions on Theoretical Geometry shall consist of theorems contained in the annexed Schedule B, together with questions upon these theorems, easy deductions from them, and arithmetical illustrations. Any proof of a Proposition shall be accepted which appears to the Examiners to form part of a systematic treatment of the subject; the order in which the theorems are stated in Schedule B is not imposed as the sequence of their treatment.

In the proof of theorems and deductions from them, the use of hypothetical constructions shall be permitted. Proofs which are only applicable to commensurable magnitudes shall be accepted.

## SCHEDULE A.

Bisection of angles and of straight lines.

Construction of perpendiculars to straight lines.

Construction of an angle equal to a given angle.

Construction of parallels to a given straight line.

Simple cases of the construction from sufficient data of triangles and quadrilaterals.

Division of straight lines into a given number of equal parts or into parts in any given proportions.

Construction of a triangle equal in area to a given polygon.

Construction of tangents to a circle and of common tangents to two circles.

Simple cases of the construction of circles from sufficient data.

Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.

Construction of regular figures of 3, 4, 6 or 8 sides in or about a given circle.

Construction of a square equal in area to a given polygon.

## SCHEDULE B.

*Angles at a Point.*

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

*Parallel Straight Lines.*

When a straight line cuts two other straight lines, if

- (i) a pair of alternate angles are equal,  
 or (ii) a pair of corresponding angles are equal,  
 or (iii) a pair of interior angles on the same side of the cutting line  
 are together equal to two right angles,  
 then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

*Triangles and Rectilinear Figures.*

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order, the sum of the angles so formed is equal to four right angles.

If two triangles have two sides of the one equal to two sides of the other, each to each, and also the angles contained by those sides equal, the triangles are congruent.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

If two triangles have the three sides of the one equal to the three sides of the other, each to each, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram, and the diagonals bisect one another.

If there are three or more parallel straight lines, and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

*Areas.*

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following algebraical identities:

$$k(a + b + c \dots) = ka + kb + kc + \dots,$$

$$(a + b)^2 = a^2 + 2ab + b^2,$$

$$(a - b)^2 = a^2 - 2ab + b^2,$$

$$a^2 - b^2 = (a + b)(a - b).$$

The square on a side of a triangle is greater than, equal to, or less than the sum of the squares on the other two sides, according as the

angle contained by those sides is obtuse, right, or acute. The difference in the cases of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

### *Loci.*

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

### *The Circle.*

A straight line, drawn from the centre of a circle to bisect a chord which is not a diameter, is at right angles to the chord; conversely, the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or, in the same circle) (i) if two arcs subtend equal angles at the centres, they are equal; (ii) conversely, if two arcs are equal, they subtend equal angles at the centres.

In equal circles (or, in the same circle) (i) if two chords are equal, they cut off equal arcs; (ii) conversely, if two arcs are equal, the chords of the arcs are equal.

Equal chords of a circle are equidistant from the centre; and the converse.

The tangent at any point of a circle and the radius through the point are perpendicular to one another.

If two circles touch, the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal; and, if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semicircle is a right angle; the angle in a segment greater than a semicircle is less than a right angle; and the angle in a segment less than a semicircle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary; and the converse.

If a straight line touch a circle, and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

### *Proportion: Similar Triangles.*

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally; and the converse.

If two triangles are equiangular their corresponding sides are proportional; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these equal angles proportional, the triangles are similar.

The internal bisector of an angle of a triangle divides the opposite side internally in the ratio of the sides containing the angle, and likewise the external bisector externally.

The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

#### 10. (3) Arithmetic.

A knowledge of recurring decimals and of the process of extracting cube root shall not be required.

The use of algebraical symbols and processes shall be permitted.

10. (4) Elementary Algebra, viz. addition, subtraction, multiplication and division; simple equations; fractions; highest common factor, lowest common multiple; quadratic equations; solutions of two simultaneous equations, one at least being linear; simple graphs; problems requiring the classes of equations specified; simple questions on fractional indices; the nature and simple properties of logarithms to the base 10, with easy applications of four-figure tables; ratio and proportion; arithmetic progression, finite geometric progressions.

Candidates shall not be allowed to attempt more than two-thirds of the questions set. In both parts of the paper passages selected from Greek and Latin authors or inscriptions shall be set for translation and linguistic comment.

tion may be used by the Examiners at their discretion to assist them in estimating the practical work done in the Examination.

THE SPECIAL BOARDS FOR PHYSICS AND CHEMISTRY and for BIOLOGY AND GEOLOGY in joint meeting assembled issue the following notice with regard to the First Part of the Examination for the Natural Sciences Tripos.

In the papers set in Part I. of the examination the questions in all the subjects will be of a comparatively elementary character, and will be such as to test a knowledge of principles rather than of details. Specimens may be exhibited for description and determination.

In Physics the questions will be limited to the elementary and fundamental parts of the subject, and, in particular, special attention will be paid to the definition of physical quantities, the general principles of measurement, the configuration and motion of a material system, the laws of motion, the comparison of forces and of masses and the properties of bodies. In Sound, Light, Heat, Electricity and Magnetism, only the fundamental laws, their simpler applications, and the experiments which illustrate them, will be required.

In Chemistry the questions will relate to the leading principles and experimental laws of Chemistry, the properties of the commoner elements and their principal compounds, the outlines of Metallurgy, and simple qualitative and quantitative analysis.

In Mineralogy the questions will be confined to elementary Crystallography, the general properties of minerals and the special characters of those species only which are of common occurrence or of well-known mineralogical importance.

In Geology the questions will be limited to Physical Geography, the interpretation of the structure of the crust of the earth and the history of its formation, so far as to involve only the elementary parts of Palæontology and Petrography.

In Botany the questions will relate to the elementary parts of Vegetable Morphology, Histology, and Physiology; and to the principles of a natural system of classification as illustrated by the more important British Natural Orders. Candidates will be required to describe plants in technical language. Questions will not be set on Vegetable Palæontology or the Geographical Distribution of Plants.

In Zoology and Comparative Anatomy minor details will not be included in the questions relating to classification. Geographical distribution of animals is held to be a part of Zoology, and Comparative Anatomy includes the structure of extinct as well as of recent forms.

Human Anatomy will include the mechanism of the human body, the comparison of its parts with those of lower animals, its development, &c.; but the questions will be of a simple and elementary character.

In Physiology the questions will be of a comparatively elementary character.

A practical examination will be held in each of the above subjects.

Other candidates may be admitted on this day to the degrees of B.A. or LL.B. on payment of a fee of £10. 10s.

Other candidates for other degrees may also be admitted on this day.

Students admitted on other days than days of general admission pay additional fees<sup>1</sup>.

On behalf of each Candidate for a degree must be presented to the Council of the Senate:

1. A Supplicat, in the form prescribed by the Senate, signed by the Head or Prælector of the College or the Principal of the Hostel to which the applicant belongs, or, in the case of a Non-Collegiate Student, by the Chairman of the Board for Non-Collegiate Students, or by the Censor, or by their respective Deputies, these Officers or their Deputies being members of the Senate in full possession of their privileges as such.

One of the Bedells carries the Supplicats to the Proctors; the Senior reads them, and, if all are approved, he says, *Omnes placent*. But, if any are disapproved of, he says, *A.B. &c. non placent, reliquæ placent*. The Supplicats are then delivered to the Registry.

Candidates for degrees must be presented by members of the Senate in full possession of their privileges as such.

<sup>1</sup> For fees, see p. 162.

The Vice-Chancellor takes the chair before the table, and a Bedell having desired the respective Fathers to be in readiness with their Sons precedes the Father of the Senior Wrangler and his Son to the Vice-Chancellor.

The Father, taking the Senior Wrangler by the right hand, presents him in these words:

*Dignissime Domine Domine Pro-Cancellarie, et tota Academia, præ-sento vobis hunc juvenem, quem scio tam moribus quam doctrinâ esse idoneum ad titulum assequendum baccalaurei in artibus designati; idque tibi fide meâ præsto totique Academiæ.*

The Senior Wrangler then kneels down before the Vice-Chancellor, who, taking his hands between his own, admits him in these words.

*Auctoritate mihi commissâ admitto te ad titulum baccalaurei in artibus designati, in nomine Patris et Filii et Spiritus Sancti.*

Candidates for degrees, belonging to different Colleges are presented by their respective Fathers in the following order: King's, Trinity, St John's, Peterhouse, Clare, Pembroke, Gonville and Caius, Trinity Hall, Corpus Christi, Queens', St Catharine's, Jesus, Christ's, Magdalene, Emmanuel, Sidney Sussex, Downing: then follow members of Public Hostels in the order of date of recognition of their Hostels, and then Non-Collegiates. Four or five Candidates are presented at once, the Father saying, *Præ-sento vobis hos juvenes quos, &c.*

As soon as they have been presented, they are directed by one of the Bedells to the south side of the Senate-House.

All the Candidates from the same College are admitted in alphabetical order immediately after presentation before those from the College next in order are presented. On the second day of General Admission in the Easter Term there are three Congregations at such hours as the Vice-Chancellor may appoint. At the first of these Congregations the supplicats of Candidates for degrees are presented to the Senate for approval. At the second Congregation the Wranglers and those whose names appear in the First Class of any Tripos or who have satisfied the Examiners in any Tripos as prescribed in the Regulations for Advanced Students are admitted to degrees in the following order; all the Candidates for the same degree whose names appear in the list of the same Tripos or Part of a Tripos are admitted in the order of the list, the Advanced Students who have satisfied the Examiners in any Tripos being admitted immediately after those whose names appear in the list of that Tripos, and the Candidates from the several Triposes being admitted in the order of seniority prescribed in the Regulations for the Inauguration of Bachelors. At the third Congregation the Candidates for the degree of LL.M. are admitted first, then the remaining Candidates, in the order of their Colleges, all the Candidates from the same College for the degrees of B.A. and LL.B. respectively being admitted in alphabetical order immediately after presentation and before the

Candidates for either degree from the College next in order are presented.

When the admissions are concluded, the Vice-Chancellor dissolves the Congregation.

At ordinary Congregations, in the case of students who have been approved for the B.A. Degree, all the Candidates from the same College are admitted in alphabetical order immediately after presentation before those from the College next in order are presented.

In case the Assessor is prevented by illness or other reasonable cause from taking part in conducting the exercises for the degree of Doctor of Medicine it shall be competent for the Regius Professor of Physic to appoint a Doctor of Medicine who is a Member of the Senate to act instead of the Assessor, subject to the approval of the Vice-Chancellor.

That the Thesis be sent to the Regius Professor at least a fortnight before the time for keeping the Act, and, after the Act is kept, the Thesis or a copy of it remain in the custody of the Professor. If the Regius Professor and the Assessor shall consider the exercises to have been duly performed, they shall certify the Registry to that effect and the certificate shall be published in the *University Reporter*.

That, in addition to the notices of Acts for the M.D. degree, hitherto distributed by the Marshal, notices of the same be posted at the New Museums, the Anatomical and Chemical Schools, and Addenbrooke's Hospital, and be sent to the Assessor of the Regius Professor, and to each member of the Special Board for Medicine.

## REGULATIONS FOR COURSES OF ADVANCED STUDY AND RESEARCH.

*(The following Regulations have effect in the case of Students admitted after Dec. 31, 1901; for former Regulations, see Ordinances, 1901, pp. 145—155.)*

### A. ADMISSION OF ADVANCED STUDENTS.

1. Applications for admission as Advanced Students shall be made to the Registry.

No person shall be admitted as an Advanced Student who has not attained the age of twenty-one years.

2. Each application shall be accompanied by

i. a diploma or other certificate of graduation at a University;

ii. a statement as to the course or courses of (a) advanced study or (b) research which the applicant desires to pursue, together with such evidence of qualification, attainments, and previous study as he may be able to submit;

iii. a certificate or declaration that the applicant has attained the age of twenty-one years.

3. In exceptional cases persons who do not present a diploma or certificate of graduation may be admitted as Advanced Students, provided they give such evidence of special qualification as may be approved by the Degree Committee of the Special Board of Studies with which the proposed course of advanced study or research is most nearly connected.

4. Applications shall, in general, be submitted not later than the first day of October in the academic year in which the applicant proposes to begin his course. But the authorities specified in Regulation 5 shall have power to consider applications submitted at other times.

5. The Registry shall forthwith communicate each application to the Chairman of the Special Board of Studies with which the proposed course of advanced study or research appears to be most nearly connected. The Chairman may from time to time appoint a member of the Degree Committee to act as his deputy in relation to such applications.

Applications for admission to courses of advanced study shall be considered and decided by the Chairman of the Special Board or by his deputy.

Applications for admission to courses of research, and exceptional applications under Regulation 3, shall be considered and decided by the Degree Committee of the Special Board.

6. The application shall not be granted unless it shall appear

i. that the course or courses of advanced study or research can conveniently be pursued within the University; and

ii. that the applicant has produced adequate evidence that he is qualified to enter upon the proposed course or courses.

7. When the application has been decided, the Chairman or his deputy shall inform the Registry of the decision; and the Registry shall inform the applicant. The Chairman or his deputy shall report the decision to the Degree Committee at its next meeting.

8. Before a person is admitted as an Advanced Student, he shall become a Member of a College or Hostel, or a Non-Collegiate Student. He shall not be allowed to count any term before that in which he has matriculated, unless he has satisfied the Council of the Senate that his matriculation had been deferred for grave and sufficient cause.

8a. An Advanced Student shall not be admissible as a candidate for any University Prize or Scholarship which is open only to Undergraduates and Bachelors designate in Arts or Law.

8b. For the purposes of any regulation respecting the standing of candidates for other University Prizes or Scholarships the first term kept by an Advanced Student shall be counted as his fourth term.

#### B. COURSES OF ADVANCED STUDY.

9. An Advanced Student, who has after the first day of the term in which he was admitted to a course of advanced study kept two terms by residence, may in the third or any subsequent term up to the tenth after such admission become a candidate for any of such Tripos Examinations or Parts of Tripos Examinations as shall have been opened to Advanced Students under the provisions hereinafter contained.

The name of every such candidate shall be sent to the Registry by the Prælector of his College or Hostel, or by the Censor of Non-Collegiate Students, as the case may be, at the same time and in the same manner as the names of other candidates; but a mark shall be added to his name showing that he is an Advanced Student.

No Advanced Student shall be allowed to be a candidate in a term later than the tenth term after his admission to a course of advanced study unless he shall have obtained permission from the Council of the Senate.

10. It shall be the duty of each Special Board of Studies from time to time to consider whether the Tripos Examination or a Part only of the Tripos Examination with which that Board is connected shall be open to Advanced Students, and also what standard in the Examination must be attained by an Advanced Student in order that his name may be included in the list mentioned in the next Regulation; and their recommendation after approval by the General Board of Studies shall be submitted for adoption by Grace of the Senate.

In cases where two or more Special Boards are connected with a Tripos Examination, the duty prescribed by this Regulation shall be performed by such Boards in joint meeting assembled.

11. The names of such Advanced Students as satisfy the Examiners that they have attained the required standard in the Examination shall be placed in alphabetical order on a List, written or printed, signed by all the Examiners and distinct from the Tripos List, which shall be regarded as the authoritative list and shall be preserved in the Registry. The Chair-

man of the Examiners shall send both to the Vice-Chancellor and to the Registry a printed copy certified by him to be a correct copy of the authoritative list.

An Advanced Student who has failed to satisfy the Examiners that he has attained the required standard in the Examination shall not again become a candidate for the same Examination.

12. An Advanced Student who has satisfied the Examiners as prescribed in Regulation 11 shall be qualified to enter upon a course of research, provided that the subject of his research be approved by the Degree Committee of one of the Special Boards.

An Advanced Student who has in any term before the sixth after his admission to a course of advanced study satisfied the Examiners as prescribed in Regulation 11 shall if he continues to keep terms by residence and is not admitted to a course of research pursue a course of advanced study under such direction and supervision and under such other conditions as may be prescribed by the Degree Committee of one of the Special Boards; and the Chairman of the Special Board shall inform the Registry as to the person or persons who shall be authorised to certify that the Student has fulfilled the prescribed conditions.

13. An Advanced Student who has satisfied the Examiners as prescribed in Regulation 11 and has kept by residence at least six terms shall be entitled to proceed to the Degree of B.A. and thereafter under the usual conditions to the Degree of M.A. and to other Degrees in the University.

14. An Advanced Student who has satisfied the Examiners in the Law Tripos as prescribed in Regulation 11 and has kept by residence at least six terms shall also be entitled to proceed to the Degree of LL.B. and thereafter under the usual conditions to the Degree of LL.M. and to other Degrees in the University.

#### C. COURSES OF RESEARCH.

15. An Advanced Student who has been admitted to a course of research shall pursue that course under such direction and supervision and under such other conditions as may be prescribed by the Degree Committee.

16. An Advanced Student, who has after the first day of the term in which he was admitted to a course of research kept two terms by residence, may in the third or any subsequent term after such admission submit to the Degree Committee, not later than the division of the term, a dissertation containing an account of and embodying the results of his research. He shall state, generally in a preface to his dissertation and specifically in notes, the sources from which his information is derived, the extent to which he has availed himself of the work of others, and the portions of the dissertation which he claims as original. The dissertation shall be referred to one or more persons appointed by the Committee, who shall have power to examine the Student orally or otherwise upon the subject thereof and shall report thereon to the Committee. Each of the persons so appointed shall receive a fee of two guineas from the University Chest.

The Committee shall have power to take into consideration together with the dissertation any memoir or work published by the Student which he may desire to submit to them.

17. If the Degree Committee be of opinion that the work submitted by the Student is of distinction as an original contribution to learning or as a record of original research, they shall draw up a statement to this effect, indicating therein the subject or subjects of the Student's research.

If the Degree Committee be of opinion that the dissertation submitted by the Student is not of sufficient merit to serve as a qualification for the

Certificate of Research, they may decide that the Student shall not be allowed again to submit to them a dissertation until after the lapse of such time as they think fit, and the Chairman shall inform the Student of this decision.

18. The statement drawn up by the Degree Committee shall be forwarded by the Chairman to the Registry, who shall embody it in a Certificate of Research in a form approved by the General Board of Studies. No such Certificate shall be granted unless and until the candidate shall have kept by residence three terms after the first day of the term in which he was admitted to a course of research.

Each candidate before receiving his Certificate of Research shall deposit in the University Library a copy of his dissertation in a form approved by the Degree Committee.

19. A Student who has obtained a Certificate of Research and has kept by residence at least six terms shall be entitled to proceed to the Degree of B.A. and thereafter under the usual conditions to the Degree of M.A. and to other Degrees in the University.

#### D. ADMISSION TO COURSES OF RESEARCH OF PERSONS WHO ARE ALREADY GRADUATES OF THE UNIVERSITY.

20. A Graduate of the University who desires to be admitted as an Advanced Student with a view to obtaining the Certificate of Research described in Regulation 18 shall make application to the Chairman of the Special Board of Studies with which his proposed course of research appears to be most nearly connected; and the application shall be considered and decided by the Degree Committee of the Special Board.

21. The Degree Committee shall not grant the application unless they are satisfied

- i. that the course or courses of research can conveniently be pursued within the University; and
- ii. that the applicant has produced adequate evidence that he is qualified to enter upon the proposed course or courses.

22. If the application be granted, the Student shall become entitled to a Certificate of Research upon satisfying the requirements of Regulations 15—18, except that the Certificate may be granted when he has kept by residence two terms after the first day of the term in which he was admitted to a course of research.

23. The fees payable by an Advanced Student admitted to a course of Advanced Study for attendance at any Lecture or course of Practical Instruction shall be the same as those charged to Students in the various departments of University Study for admission to the respective Lectures and courses of Practical Instruction.

24. The fee ordinarily payable by each Advanced Student, admitted to a course of research, for working in one of the University Laboratories or Museums shall be such fee not exceeding £4. 4s. per term as the Professor or other officer in charge of the Laboratory or Museum shall determine. The Professor or other officer in charge of the Laboratory or Museum may in addition require such payment as he may think fit for material or special apparatus supplied to the Student. In particular cases the Professor or other officer in charge of the Laboratory or Museum may, if he thinks fit, remit the fee or any part thereof.

### ADMISSION OF STUDENTS FROM OTHER UNIVERSITIES.

Students in *statu pupillari* who have kept Terms by *bonâ fide* residence at the University of Oxford or at the University of Dublin are allowed Terms corresponding to those which they have so kept, provided

- (1) That for each Term allowed they produce a certificate satisfactory to the Council of the Senate that the corresponding Term or Terms have been duly kept according to the Regulations in force at the University from which they have migrated.
- (2) That the aggregate number of the days during which they have resided at that University in the Terms corresponding to those allowed be not less than the aggregate number of the days during which they would have been required to reside in this University in order to keep by residence the Terms allowed: provided that, if the aggregate be less, the deficiency may be supplied by counting days during which they have resided in some other Term which they have kept wholly or in part by residence at the University from which they have migrated.

A Graduate either of the University of Oxford or of the University of Dublin may be admitted by incorporation to the same Degree or Degrees as those which his own University had conferred upon him, if such admission be approved by a special Grace of which three days' notice shall have been given and such Graduate have previously

- (1) satisfied the Council of the Senate that he had qualified himself for his Degree or Degrees not only by having passed the Examinations and performed the Exercises required, but by having kept his Terms by residence in his own University:
- (2) satisfied the Council that there are adequate reasons for granting his application, and obtained the Council's permission to incorporate:
- (3) resided during the greater part of one Term at the least at Cambridge, such residence to be certified under the hand and seal of the Master of his College, or of the Chairman of the Unattached Students Board, or in default thereof be holding some office either in the University or in one of the Colleges:
- (4) become a matriculated member of the University.

### AFFILIATED COLLEGES AND CENTRES.

The University has power to adopt as an affiliated College in any place within the United Kingdom or in any part of the British dominion any institution founded for the education of adult students, with such conditions as to the provision of lectures, and as to the rules and arrangements for the students, as may be determined from time to time by Grace.

Students of the institution who have continued Members of it for such length of time, not less than two years and have attended such lectures and passed such examinations as may be required from time to time by Grace of the Senate if admitted as members of the University are deemed, for such purposes and under such conditions as the Senate may from time to time by Grace determine, to have already kept three terms by residence.

The University has power also to terminate at any time by Grace the connexion of the University with the institution as an affiliated College.

The University has power also to admit on like conditions to the privileges of students of an affiliated College adult students attending a course of education conducted by a Committee in concert with the University in places where there is no affiliated College.

The conditions vary considerably in the different cases; they are stated in the Book of Ordinances, and should be carefully examined. (See

Such residence shall be kept (a) at Girton College, or (b) at Newnham College, or (c) within the precincts of the University under the regulations of one or other of these Colleges, or (d) in any similar institution within the precincts of the University which may be recognised hereafter by the University by Grace of the Senate.

## LOCAL EXAMINATIONS AND LECTURES.

THE extra-mural work conducted by the Local Examinations and Lectures Syndicate falls under three heads: I. The Local Examinations; II. The Examination of Schools; III. The Local Lectures.

### I. THE LOCAL EXAMINATIONS.

#### (i) LOCAL EXAMINATIONS FOR SENIOR AND JUNIOR STUDENTS.

These Examinations were instituted in 1858. They are conducted at various places throughout the country by means of printed papers set by a central body of Examiners and worked by the candidates in the presence of Examiners sent down for that purpose. For seven years the Examinations were open to boys only. In 1865, a Grace of the Senate admitted girls also to the Examinations for 1865, 1866, 1867; and in 1867 girls were put permanently on the same footing as boys.

Candidates are admitted to the Examinations without limit of age, but Senior Students cannot be placed in one of the Honour Classes unless they are under 19, and Junior Students cannot be placed in one of the Honour Classes unless they are under 16. Every Candidate pays to the Syndicate a fee of £1. The local expenses of providing an Examination room, stationery, &c., are borne by the local Committee of Management at each centre of Examination, and to meet these expenses a local fee is charged to each Candidate by the local Committee. This fee is usually from five to ten shillings.

Senior Candidates can procure exemption from the Previous Examination on the following terms:—

From Part I. by shewing a sufficient degree of merit in the Gospel (including the Greek text), in Latin, and in Greek;

From Part II. by shewing a sufficient degree of merit in Arithmetic, in Geometry, in Algebra, in English Composition, and either in Religious Knowledge or in Logic;

From the Additional Subjects by shewing a sufficient degree of merit either in Applied Mathematics, or in French, or in German.

## (ii) HIGHER LOCAL EXAMINATION.

Examinations for Women above 18 years of age (now above 17 years of age) were instituted in 1869, and made permanent in 1871. They were thrown open to Men in 1873. They take place in June, and there is a supplementary Examination in December. Candidates must have completed seventeen years of age before the first day of the month in which the Examination is held, or must have obtained an Honours Class in the Senior Local Examination or a Higher Certificate of the Oxford and Cambridge Schools Examination Board with distinction in two subjects. Each Candidate pays to the Syndicate a fee of £2. and £1 for each subsequent Examination.

Candidates are excused from Part I. of the Previous Examination if they have passed in the New Testament (including the Greek Text), in Latin, and in Greek: from Part II. if they have passed in English Language and Literature, in Arithmetic, in Geometry, in Algebra, and either in one Theological Book or in Logic: from the Additional Subjects if they have passed either (a) in Statics and Dynamics, or (b) in French, or (c) in German.

## (iii) PRELIMINARY LOCAL EXAMINATION.

A Preliminary Local Examination, to which only the Students under 16 are admissible, and in which no Students are placed in any Honour Class unless they are under 14, was instituted in 1895. This Examination is held in December at the same time as the Examinations for Senior and Junior Students. Every Candidate pays to the Syndicate a fee of 10s. 6d.

## II. EXAMINATION OF SCHOOLS.

The Syndicate sends Examiners to inspect and report upon schools which make application. In 1903 ninety-eight schools were thus examined.

## III. LOCAL LECTURES.

The purpose of the Local Lectures and Classes (popularly known as "University Extension") is to provide the means of higher education for persons of all ranks and of both sexes engaged in the regular occupations of life. Lecturers are sent to deliver courses of lectures in groups of towns, each lecture being preceded or followed by a "class" for more detailed instruction. The charge, inclusive of everything but local expenses, for a course of 12 lectures and classes is £50. The first courses were arranged by the University of Cambridge in 1873, and the work has been taken up by other Universities and has been carried on in the country with increasing success. In 1886 powers were obtained to affiliate Lecture Centres to the University, and the following have been affiliated:—Derby, Exeter, Hull, Newcastle-upon-Tyne, Norwich, Plymouth, Scarborough, Sunderland.

Full particulars as to the Local Examinations and the Examination of Schools can be obtained from Dr J. N. KEYNES, Secretary for Examinations, and as to Local Lectures from the Rev. D. H. S. CRANAGE, M.A., Secretary for Lectures, at the Office of the Syndicate, Syndicate Buildings, Mill Lane, Cambridge.

## OXFORD AND CAMBRIDGE SCHOOLS EXAMINATION BOARD.

THIS Board was formed in accordance with Articles of Agreement signed on Nov. 8, 1873, by representatives of the two Universities.

The Board examines such Schools as have a regularly constituted Governing Body, or prepare a fair proportion of their boys for the Universities, or in any other way give evidence of providing an education of the highest grade. It also grants Certificates to boys under education at School, who are examined under its authority. The Certificate Examination may be combined with the Examination of any School to which the Board appoints Examiners. Candidates under education at a School to which the Board does not appoint Examiners, and from which only a few Candidates are entered, are examined at a few convenient centres. The Board also undertakes the Inspection of Schools at any time during the School year, except when the Examinations are going on.

A School Examination, held under the authority of the Board, may be of one or more of the following kinds:—

- (a) Such an Examination in the general work of the School, extending either to the whole School or to portions of the School to be selected with the approval of the Board, as will enable the Examiners to report generally upon the School work.
- (b) Such an Examination in any main subject or subjects of instruction, extending either to the whole School or to portions of the School to be selected with the approval of the Board, as will enable the Examiners to report on the standard reached in that subject or subjects.
- (c) Such an Examination of the highest division of the School as will enable the Examiners to report upon the general work of that division, and, if required, to place the boys in order of merit, and to award exhibitions, scholarships, and prizes.

There is one Examination for Higher Certificates in each year in July.

The Examination for Higher Certificates includes the following Subjects:

- Group I. (1) Latin. (2) Greek. (3) French. (4) German.
- Group II. (1) Elementary Mathematics. (2) Additional Mathematics.
- Group III. (1) Scripture Knowledge. (2) English. (3) History.
- Group IV. (1) Natural Philosophy (Mechanical Division). (2) Natural Philosophy (Physical Division). (3) Natural Philosophy (Chemical Division). (4) Physical Geography and elementary Geology. (5) Biology.

Every Candidate is required to satisfy the Examiners in at least four Subjects taken from not less than three different groups, and no Candidate is permitted to offer more than six Subjects. If however a Candidate satisfy the Examiners in one subject taken from Group II. or IV., he may offer three subjects taken from Group I.; also a Candidate who already holds a Certificate may offer four subjects taken from not less than two different groups.

The Board also examines Girls under the same Regulations as for Boys, with four additional Regulations providing for the option of substituting Italian for Greek, and Music for Natural Philosophy (Mechanical Division), and in being examined in Drawing, and of passing the required four subjects two at a time.

About five weeks after the Examinations, a list of all Candidates who have passed is published. To each successful Candidate a Certificate is given, signed by the Vice-Chancellors of the Universities of Oxford and Cambridge, specifying (a) the subjects in which the Candidate has passed merely (b) the subjects in which he has passed with distinction. These Certificates confer exemption, under certain conditions, from various Examinations.

held by public bodies, including the Previous Examination in the University of Cambridge, and the Examination for Responsions in the University of Oxford. The Higher Certificates exempt from the first Part of the Previous Examination when the Candidate has satisfied the Examiners in Scripture Knowledge (showing a knowledge of the Greek Text), and in Greek and Latin; from the second Part, when the Candidate has satisfied the Examiners in Scripture Knowledge, and in Elementary and Additional Mathematics, and English or English Prose Composition; and from the Examination in the Additional Subjects when the Candidate has satisfied the Examiners in I. (a) Trigonometry, (b) Statics and (c) Dynamics, or II. French, or III. German.

The holder of a Certificate shewing that he has passed in Scripture Knowledge and in Elementary and Additional Mathematics (but not in English or English Prose Composition) is excused from the papers other than the English Essay of the second Part of the Previous Examination, and is required to pass in the English Essay in the second Part of the Previous Examination.

There is an Examination for Lower Certificates in each year, in July.

This Examination includes the following subjects:—Group I. (1) Latin, (2) Greek, (3) French, (4) German; Group II. (1) Arithmetic, (2) Additional Mathematics; Group III. (1) Scripture Knowledge, (2) English, (3) English History, (4) Geography; Group IV. (1) Mechanics and Physics, (2) Physics and Chemistry, (3) Chemistry and Mechanics, (4) for girls only, Botany; candidates may also offer Geometrical Drawing.

Candidates must satisfy the Examiners in five subjects taken from not less than three groups, of which Groups I. and II. must be two; and must answer the questions so as to satisfy the Examiners that they have an adequate knowledge of English Grammar and Orthography.

A Candidate for a Higher Certificate—although he does not gain a Certificate—may be specially exempted from the various parts of the Previous Examination in the following ways:—

From Part I. if he has satisfied the Examiners appointed by the Board at one and the same Examination in one Greek Book (or Unprepared Greek Translation), in one Latin Book (or Latin Prose Composition), in Greek and Latin Grammar, in Unprepared Latin Translation, and in a Prepared Book of the Old or New Testament, showing a satisfactory knowledge of the Greek Text.

From Part II (except the English Essay), if he has satisfied the Examiners appointed by the Board at one and the same Examination in the paper on the Four Gospels, together with the outlines of the history contained in the Old Testament, in Elementary Mathematics and in Algebra and Euclid, as required for passing in Additional Mathematics; and further from the English Essay, if he has satisfied the Examiners in English or English Prose Composition.

From the Additional Subjects, if he has satisfied the Examiners appointed by the Board in Trigonometry, Statics and Dynamics, at one and the same Examination, or in French or in German.

A Candidate who is entitled to such special exemption will receive a statement to that effect, signed by the Secretary of the Cambridge Syndicate.

Information, about both School Examinations and Examinations for Certificates, and Inspections of Schools, will be found in the Regulations of the Board, which are published by the Oxford and Cambridge University Presses, and may be procured from their agents. All communications relating to the Examinations and Inspections should be addressed to one of the Secretaries, E. J. Gross, Esq., M.A., Caius College, Cambridge, and P. E. Matheson, Esq., M.A., New College, Oxford.

## CAMBRIDGE UNIVERSITY DAY TRAINING COLLEGE.

Committee: Sedley Taylor, M.A., Trinity College; Oscar Browning, M.A., Fellow of King's College, Principal; W. Durnford, M.A., Fellow of King's College; T. W. Drury, M.A., Christ's College; Rev. E. G. Swain, M.A., King's College; Rev. W. T. A. Barber, Caius College; Dr W. H. D. Rouse, Christ's College.

Principal of the Training College: Oscar Browning, M.A., Fellow of King's College. University Lecturer in History.

Vice-Principal. Master of Method and Lecturer on the Theory, History, and Practice of Education: S. S. F. Fletcher, M.A., King's College.

Assistant-Master of Method: F. G. Blandford, M.A., Corpus Christi College.

Assistant Lecturer in Education: R. L. Archer, B.A., Wadham College, Oxford.

Lecturer on School Management: J. Wallis, B.A., Head Master of Paradise Street School.

The College consists of two departments, a primary and a secondary.

1. Candidates for admission to the Primary Department must be men who have obtained a First Class in the King's Scholarship Examination, or who are otherwise qualified.

2. Before candidates are admitted they will be required to produce (1) a certificate of birth; (2) satisfactory testimony as to moral character from two responsible persons; (3) testimonials from Head Teachers and Managers of Schools in which they have been trained. Also in accordance with Art. 117 of the Code, "(a) the medical officer of the College must certify that the state of their health is satisfactory, and that they are free from serious bodily defect or deformity; and (b) they must sign a declaration that they intend *bonâ fide* to adopt and follow the profession of teacher in a Public Elementary School or Training College."

3. All students must become matriculated students of the University, either as members of a College or as Non-Collegiate Students. They must enter the Training College at the beginning of October and cannot be admitted after October 21, the day fixed by the University for matriculation. There is no examination for matriculation at Cambridge. The University year begins in October and ends in June: it consists of three terms amounting to about twenty-five weeks in all. Residence is obligatory during this period, but students of the Day Training College may find some further residence necessary in order to complete their practical training.

4. No fee is charged for admission to the Day Training College and the whole of the grant allowed by the Board of Education will be paid to the students in instalments as received.

It has been found by experience that the average expenditure of Members of the Day Training College residing as Non-Collegiate Students, economically in lodgings, during the twenty-five weeks of necessary residence, is between £65 and £75 a year, exclusive of clothes and travelling expenses.

Since the opening of the College a number of Students have held Exhibitions or Scholarships given by different Colleges or by the Non-Collegiate Board to members of the Day Training College. It is probable that this assistance will be continued in the future, but the exact number available in each year is uncertain.

Students in the Secondary Department must be matriculated members of the University, and must have passed at least the Previous Examination. The course of training is for a year, which may be spent wholly at the Training College, or partly under supervision in some school approved of by the Committee. They must attend such courses of lectures on the Theory, History and Practice of Education, and do such work in connection with them as the Committee may from time to time prescribe. They must attend such Criticism, Model and Visiting Lessons given in connection with the Training College as the Committee may order. They shall give at least a week's teaching in a Practising School connected with the College during each term they are in residence.

The Theoretical work consists of lectures on the Theory, History and Practice of Education, on School Method and other kindred subjects, given by the Lecturer and Master of Method, who also guides the reading of the students and sets and corrects papers done by them. The Practical work consists of criticism lessons; of model lessons, visiting lessons, and other approved methods of teaching the Practice of Education. Facilities

are also provided for students to practise in schools under competent supervision.

The University grants a certificate of theoretical and practical efficiency to persons who have satisfied the examiners in a written examination held twice a year, in June and December; and who, being presented by the Training College, have satisfied the examiner in Practice, who will take into account reports on the practical work done by the student.

The fee payable for the above courses is £7. 10s. a term.

Applications for admission and enquiries are to be addressed to the Principal of the College, Oscar Browning, M.A., King's College, Cambridge.

Information respecting the arrangements made from time to time by the Board may be obtained from the Secretary, W. A. J. Archbold, M.A., St Peter's College, Syndicate Buildings, Cambridge.

An Association of Colleges has been formed to provide supplementary lectures in the subjects of the examination for the open competition. Mr G. P. Moriarty, 1, Mill Lane, has been appointed Director of Studies, and will advise Candidates with reference to their work for the Open Competition.

## CLASSICAL TRIPOSES. NEW REGULATIONS.

*The Examinations are held in Easter Term.*

A Student who has obtained Honours in Part I. may be a Candidate for Honours in Part II. following, provided that he has then kept seven terms, and that twelve terms have not passed after the first of the seven.

The names are arranged alphabetically, in Part I. in each division of each class, in Part II. in each class.

In Part II. the letters *b*, *c*, *d*, *e*, appended to the name of a candidate denote the section or sections for which he is placed in the first class. The combination of two letters thus, "*b* with *c*" or "*c* with *d*," indicates that a candidate has obtained a first class on the combined result of two sections. The letter *a* indicates that the candidate to whose name it is appended has also attained a first class standard in section A. The asterisk denotes special distinction.
